

# Warm Hearted Friends

© 2013 Radha Sahar

Sometimes I shiver on a cold winter's day  
Friends, when you're around I never feel that way  
Barely need the heater, forget to light the fire  
You radiate such a great glow!

Thank you, my warm hearted friends  
You light up my life, keep the sun shining through  
Thank goodness for warm hearted friends  
Warm hearted friends like you

You make the world a better place. I wanna do that too  
To shine a light together – a little spark or two  
Along with you I wanna do some good - is that naive?  
You keep me believing that I can  
Thank you, my warm hearted friends ...

"My Goodness!" you say – and well you may;  
Coz goodness is your middle name!  
I know you're sure to reply that we're all good inside.  
All the more reason for me to say ...

Look around the room - we're only here for a while  
Time enough to give someone a hug or a smile  
Time enough to thank someone for the little things they do  
And that is why I'm here thanking you

Thank you, my warm hearted friends  
You light up my life, keep the sun shining through  
Thank goodness for warm hearted friends  
Warm hearted friends like you
